4. Project Description

(Completed in as much detail as possible.)

- a. The scope of the work to be accomplished is a detailed description of project activities.
- b. The benefit statement describes the advantages of the project as relates to the selected project category.
- c. The location of the project includes the name of the building, department, and/or specific location of where the project will be conducted on campus.
- d. List any departments you anticipate to be involved. Were any departments consulted in preparation of this request? Who? A listing may be attached to this form when submitted.
- e. Provide specific information on anticipated student involvement or benefit.
- f. Provide information for anticipated future operating and/or maintenance requirements occurring as a result of the proposed project.
- g. Provide any additional comments or information that may be pertinent to approval of the project funding request.

4a. Scope: Work to be accomplished

Install two water bottle filling stations in place of the current water fountains...one on the second floor of the JUB outside women's restroom, and one on the third floor, near the women's restroom and Dining Room C.

4b. Scope: Benefit Statement

The James Union Building Tennessee Room is currently in use for dance classes. The building has two other classrooms, and faculty and departmental offices on the third floor, so it is heavily trafficked by students. The Tennessee Room frequently has large events such as internship and job fairs, talent shows, and the like, and not all are able to offer refreshments. We believe that students (and faculty/staff) would appreciate the opportunity to fill their water bottles in these areas.
