## MTSU Clean Energy Initiative Project Funding Request

There are five (5) sections of the request to complete before submitting. See <http://www.mtsu.edu/~sga/cleanenergy.shtml> for funding guidelines. Save completed form and email to [cee@mtsu.edu](mailto:cee@mtsu.edu) or mail to MTSU Box 57.

1. General Information	
Name of Person Submitting Request Kristin England	
Department/Office Facilities Services	Phone # (Office) 615-898-2306
MTSU Box # <b>Box 32</b>	Phone # (Cell)
E-mail <a href="mailto:kristin.england@mtsu.edu">kristin.england@mtsu.edu</a>	Submittal Date 9/28/23

2. Project Categories (Select One)	
Select the category that best describes the project.	
<input checked="" type="checkbox"/> Energy Conservation/Efficiency	<input type="checkbox"/> Sustainable Design
<input type="checkbox"/> Alternative Fuels	<input type="checkbox"/> Other
<input type="checkbox"/> Renewable Energy	

3. Project Information	
<p>a. Please provide a brief descriptive title for the project.</p> <p>b. The project cost estimate is the expected cost of the project to be considered by the committee for approval, which may differ from the total project cost in the case of matching funding opportunities. <b>Any funding request is a 'not-to-exceed' amount. Any proposed expenditure above the requested amount will require a resubmission.</b></p> <p>c. List the source of project cost estimates.</p> <p>d. Provide a brief explanation in response to question regarding previous funding.</p>	
3a. Project Title	Backflow Preventer Temperature Sensors
3b. Project Cost Estimate	\$6,000
3c. Source of Estimate	Supplier Quotes
3d. If previous funding from this source was awarded, explain how this request differs?	N/A

**4. Project Description**

(Completed in as much detail as possible.)

- a. The scope of the work to be accomplished is a detailed description of project activities.
- b. The benefit statement describes the advantages of the project as relates to the selected project category.
- c. The location of the project includes the name of the building, department, and/or specific location of where the project will be conducted on campus.
- d. List any departments you anticipate to be involved. Were any departments consulted in preparation of this request? Who? A listing may be attached to this form when submitted.
- e. Provide specific information on anticipated student involvement or benefit.
- f. Provide information for anticipated future operating and/or maintenance requirements occurring as a result of the proposed project.
- g. Provide any additional comments or information that may be pertinent to approval of the project funding request.

**4a. Scope: Work to be accomplished**

This project would install six (6) temperature sensors at backflow preventers on campus to improve monitoring.

**4b. Scope: Benefit Statement**

When weather is extremely cold, these backflow preventers are at risk of freezing therefore bursting and causing a loss of water as has happened in the past. By improving our ability to monitor temperature in these critical locations, we reduce the risk of wasting city water from a burst pipe.

<b>4. Project Description (continued)</b>
4c. Location of Project (Building, etc.) Variety of locations on campus.
4d. Participants and Roles Engineering Services System Engineer and Engineering Tech Administrator
4e. Student participation and/or student benefit
4f. Future Operating and/or Maintenance Requirements Battery changes for sensors every 10 years. Monitoring of alarms from temperature sensors.
4g. Additional Comments or Information Pertinent to the Proposed Project

### 5. Project Performance Information

Provide information if applicable.

- a. Provide information on estimated annual energy savings stated in units such as kW, kWh, Btu, gallons, etc.
- b. Provide information on estimated annual energy cost savings in monetary terms.
- c. Provide information on any annual operating or other cost savings in monetary terms. Be specific.
- d. Provide information about any matching or supplementary funding opportunities that are available. Identify all sources and explain.

5a. Estimated Annual Energy Savings (Estimated in kW, kWh, Btu, etc.)

5b. Annual Energy COST Savings (\$)

5c. Annual Operating or Other Cost Savings. Specify. (\$)

Better remote monitoring will save costs from personnel spending time checking backflow preventers in person.

5d. Matching or Supplementary Funding (Identify and Explain)
