I. INTRODUCTION:

This policy provides continuation of employment and promotion guidelines for Instructors in compliance with University Policy 202 (Faculty Definition, Roles, Responsibilities, and Appointment Types), available at the website of the Office of the Provost:

A. Academic rank is an element of faculty status. Academic rank may only be assigned to faculty who meet the minimum rank criteria below.

B. Initial appointment in academic rank is based on specific criteria and expectations. In general, each academic rank requires an advanced degree in the academic discipline. Where the degree is from a related area, the Department Chair/Director and Dean must approve the degree as being related to the academic discipline and forward such recommendation to the provost. Upon receipt of these recommendations, the provost will determine whether the degree is appropriate to the teaching field, normally at the time of initial appointment of the faculty member.
