

How to Use Kubi Remote Presence Robot

Starting Kubi

(Before use, make sure the Kubi Stand and iPad are fully charged)

To begin:

- 1) Run the Kubi Control App on Ipad.
- 2) Run Skype and make sure it is signed up with the proper jcbkubi# account

Connecting to Kubi Via Your Personal Device

The following steps are completed by the remote user:

First, open your web browser. Follow the link below connect to Kubi to control the Robot.

- If you are using Kubi 1 go to <http://kubi.me/674D32>
- If you are using Kubi 2 go to <http://kubi.me/673340>

Next, sign into Skype.

Using your personal skype account, call the Kubi device

- For Kubi 1 call jcbkubi1
- For Kubi 2 call jcbkubi2

On the Kubi iPad:

- accept the call
- enable video, and turn on the microphone.

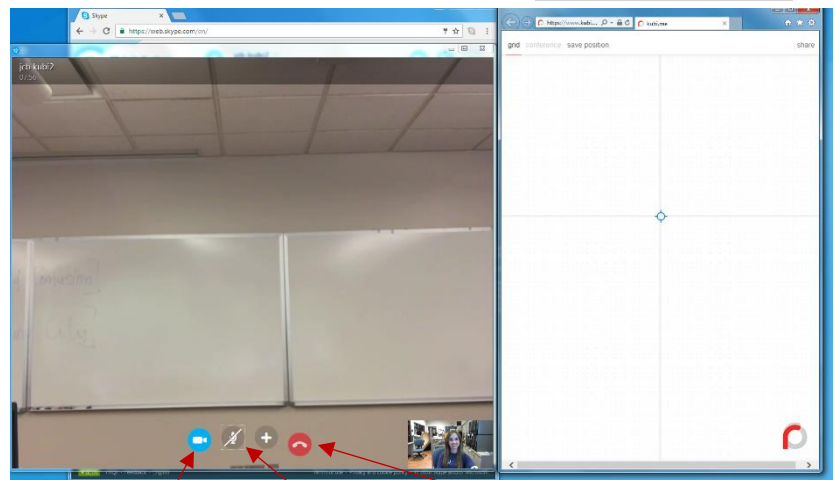

Depending on your personal device, you may need to adjust the microphone volume settings.

How to Navigate Kubi

Following the link provided above, you will be directed to the Kubi navigation page. Users may move and click on any section of the grid to move the display head of Kubi.
