Design Concept Statement

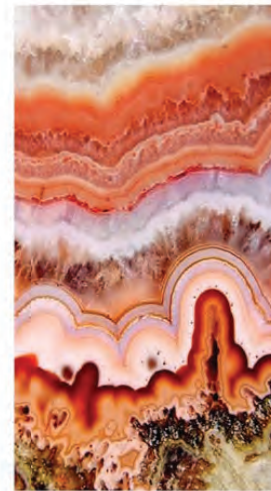

The 2018 remodel of the corner plot of an enclosed mall transforms the existing 3,200 sq. ft. structure into a contemporary bohemian, eclectic marketplace for the curious, nomadic spirit. Soulsations, owned by Ms. Mooni, welcomes customers of all ages with a rich, saturated, jewel toned color scheme of turquoise, orange, and red orange and accents of off-white. The open plan that incorporates a home-like atmosphere by transitioning from metaphysical items to clothing displays, into furniture and homegoods staged in a relaxed environment. Tribal designs, rich and colorful textiles of the sub Continent, and a Mexican ethnic touch boasts the nomadic lifestyle. Colorful vintage pottery, stones from around the globe, and ubiquitous musical instruments highlight cultural diversity. Local, handmade products are emphasized throughout the space.
