

International Student Health Insurance

2014-2015 Academic Year

All international students are required to purchase the MTSU Student Health Insurance Plan as a condition of enrollment. Exceptions may apply for international students who are covered under a government sponsor, select international organization, as a US-based employee, or as a dependent of a US-based employee.

In order to **WAIVE OUT** of the University-sponsored health insurance plan, **international students must complete an official waiver form and turn it into the Office of International Affairs during the first two weeks only of the term.** Waiver forms will be distributed during the International Student Orientation. Failure to submit a complete waiver application will result in automatic enrollment in the MTSU Student Health Insurance Plan, and the charge for the Plan will appear as a line item on your account statement.
