

FARMERSSM INSURANCE

Privett Agency

About Us

We are a growing Farmers agency seeking to expand market share through consistent targeted marketing campaigns, while providing excellent customer service and meeting the insurance needs of our clients.

Farmers Insurance Company was founded in 1928 and provides home, auto, business, life, and financial services to more than 10 million households, generating \$19 billion in annual written premium.

At Privett Insurance Agency we believe our employees set the tone, drive our strategy, dream of the future, and create world class customer experiences. Our employees also help make Farmers one of the largest insurers of vehicles, homes and small businesses in the United States.

Internship

We are looking for a student interested in pursuing a career in risk management & insurance to join our team on a part-time basis while in school and perhaps full-time during breaks. This is a salaried position that would require experience with social media marketing and a willingness to make follow up phone calls to potential clients which have inquired about coverage.

We are hoping to find the right candidate to help stream line marketing, conduct marketing research and manage a social media program for our agency. We would prefer this person to work approximately 20 hours per week but can be flexible regarding hours.

Location

Spring Hill, Tennessee (near Hwy 396 and I-65)
