

Army Reserve Officers' Training Corps (AROTC)

MTSU students can earn commissions as second lieutenants in the United States Army, Army Reserve (USAR), or Army National Guard (ARNG) while pursuing either undergraduate or graduate studies.

Army ROTC provides multiple paths for students to obtain their commissions. Entry-level military science training during the freshman and sophomore years consists of basic rifle marksmanship, rappelling, leadership development, and orienteering. There is no military service obligation during this phase. Students with prior military service may receive academic credit for the first two years. Students who have not taken any military science classes by the end of their sophomore year may receive placement credit by attending the leader training course, conducted each summer at Fort Knox, Kentucky. Pay for summer camp is approximately \$640.

At the beginning of the junior year, students begin Advanced ROTC training built around leadership assessment and practical application of their management and leadership skills. Airborne, Air Assault, and Northern Warfare training are available to students. Cadets attend leader training between their junior and senior years. All advanced training students receive a monthly subsistence allowance. Full-time employment upon graduation is available for those students who are selected for an initial three- or four-year active duty assignment.

Scholarships: Army ROTC offers three- and two-year on-campus scholarships each year to qualified enrolled and non-enrolled military science students. These scholarships pay for registration, books, and lab fees, in addition to the monthly subsistence allowance. Scholarship recipients may be selected for initial active duty assignments or reserve assignments.

Further information concerning AROTC may be obtained by consulting the Military Science Department course offerings in this catalog, listed under the College of Basic and Applied Sciences, or by writing
