Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				

Mathematical Sciences

ACSI - 2100 - Introduction to Actuarial Science	Summer 2024	New Course	Introductory survey of actuarial science, covering key actuarial concepts of risk management products, actuaries' roles and responsibilities, various actuarial practices, and the actuarial control cycle. TBC	2
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				
ACSI - 4430 - Introduction to Loss Models and Credibility	Spring 2024	New Course	Prerequisites: ACSI 4140 and 4230. Topics include Insurance and Reinsurance Coverages; Severity, Frequency, and Aggregate Models; Parametric and Non-Parametric Estimation; Introduction to Credibility	3
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				
ACSI - 4440 - Advanced Topics on Loss Models and Credibility	Spring 2024	New Course	Prerequisites: ACSI 4140, 4230, and 4430. Advanced topics for short term actuarial mathematics including Severity Models, Aggregate Models, Coverage Modifications, Construction and Selection of Parametric Models, Credibility, Reserving for Short-Term Insurance Coverages and Pricing for Short-Term Insurance Coverages.	4
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				
MATH - 4251 - Introduction to Analysis II	Spring 2024	New Course	Prerequisite: MATH 4250/5250 or equivalent with a grade of C or better. Infinite series; Rigorous treatment of limits, continuity, differentiation, and integration in n-dimensional Euclidean space; introduction to metric spaces.	50
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				

Physics and Astronomy

PHYS - 2270 - Introduction to Quantum Computing	Spring 2024	New Course	Students must pass Calculus I (MATH 1910) with a grade of C- or better to enroll in this course. Basics of quantum information, quantum fundamentals, qubit, quantum gates, entanglement, quantum algorithms.	66
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				

PHYS - 3370 - Quantum Computing Applications	Spring 2024	New Course	Prerequisite: PHYS 2270 with grade of C- or better. Quantum applications, Qiskit, hand-on quantum computing, quantum algorithms.	68
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				

Physics, Quantum Science and Computing Concentration, B.S.	Summer 2024	New Concentration	Quantum Science is an emerging and rapidly advancing field and MTSU is not yet ready to address workforce development. This concentration will fill a gap in our current training, making sure our students have the latest skills and knowledge in this evolving field.	80
Discussion: Department representative was available to answer questions. Dr. Henderson stated a collaboration for a minor in the field is under discussion.				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				

College of Behavioral and Health Sciences

Criminal Justice Administration

Criminal Justice Minor	Summer 2024	Change name of minor	Change name from Criminal Justice Administration Minor to Criminal Justice Minor	24
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				

Health and Human Performance

CDIS - 4960 - Autism Spectrum Disorder and Speech-Language Pathology	Spring 2024	New Course	Prerequisite: CDIS 3300. Focuses on evidence-based assessment and intervention strategies for individuals with autism spectrum disorder (ASD). Major emphasis will be placed on the core communication (speech and language) and behavioral characteristics of individuals with ASD in addition to the neurological processes driving hallmark behaviors of autistic individuals. Interventions across the lifespan addressed.	15
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				
CDIS - 4970 - Introduction to Augmentative and Alternative Communication (AAC)	Spring 2024	New Course	Prerequisite: CDIS 3300. Examines assessment and intervention in augmentative and alternative communication (AAC) techniques for persons having severe communication disorders or complex communication needs (CCN).	16
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				
EXSC - 4100 - Strength, Conditioning, and Human Performance	Spring 2024	New Course	Prerequisites: BIOL 2010/2011, EXSC 1000, and EXSC 3900. Theories and principles of strength training and conditioning and techniques used to become a strength and conditioning specialist.	28
Discussion: N/A				
Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.				
EXSC - 4200 - Research Methods in Exercise Science	Spring 2024	New Course	Prerequisite: EXSC 3830 with grade of C- or better. For EXSC students only. Aims to develop students' knowledge regarding exercise science research by teaching them how to find and interpret research articles, summarize research findings, use appropriate references, identify opportunities for applying information from research articles, effectively communicate research information, and implement ethical research practices.	29

Discussion: N/A

Committee Action: A motion was made to approve the proposal. The motion was seconded and approved.

Exercise Science, B.S.	Summer 2024	Change to curriculum of existing major (including concentrations), minor, or certificate	Add EXSC 4100 and 4200; remove EXSC 4000 and 4010 from requirements	31
